FALL WINTER
2026 - 2027

ROSSIGNOL

LESS IS MORE

Giving life and form to a concept. This ambition is in Rossignol's DNA. It is reflected in the Quest for innovation in order to meet the expectations of competitors and skiers looking for high performance and technical characteristics.

This is how the development department envisioned the innovations of the X-IUM ski series. The X-IUM Premium+ and WCS+ ski line with Capless Light+ Technology was born from the idea that you can do more with less.

Weight reduction was the focus of our research. By eliminating the top layer of the ski (cap or top sheet), 80 grams per pair could be saved. Performance was improved with a more efficient, easier to handle ski. The athletes at Rossignol wanted to develop a ski with better acceleration and less energy loss for a stronger, more efficient race setup. With the X-IUM Premium+ and WCS+, Rossignol has delivered them a safe and high performance product.

By producing a softer and more tolerant ski in a lighter package, the aim is to guarantee optimal skiing enjoyment for all skiers, not just those focused on competition. While the performance of the product is the main focus, skiability is the biggest benefit.

This approach goes hand in hand with Rossignol's stated intention to evolve as part of its Respect program, taking into account the protection of the mountains as a whole.

The X-IUM Premium+ and WCS+ ski constructions are an important part of the company's plan to continuously reduce industrial waste and reduce its carbon footprint by 30% by 2030. By eliminating the topsheet over the entire length of the ski, Rossignol limits the use of plastics and promotes the use of more environmentally friendly technologies.

Between innovation and modernity.

Rossignol breaks with market habits and responds to the needs of all who want to enjoy adventure in the outdoors.

ACCESSORIES

Poles

R-clip

R-clip technology allows you to click in and out of your pole grips with the same ease as bindings, providing perfect hand positioning and a far more sturdy connection to the pole. Compatible with carbon shafts, the alpine grip is made from a single plastic so the grip can be recycled, the Nordic grip is made from cork with a redesigned strap that's more ergonomic than ever.

VEZOR

MAXIMUM GRIP.
PRECISION FIT. RACE-DAY READY.

The VEZOR has the propulsive performance to carry committed trail runners across long to medium distances.

VEZOR

RNNMA70/RNNWA70

AUDIENCE

Committed trail runners looking for propulsive performance across long to medium distances and rugged, technical terrain.

1. TECHNOLOGIES

Upper composition:

1. Breathable mesh - 30% recycled
2. Anti-Dirt Filter - 30% recycled
3. Internal wrapping cage + TPU toe cap to keep you safe from unexpected impacts - 30% recycled

Insole:

Removable footbed system allows further refinement for a personalized fit.

Midsole:

Our Diapazon «tuning-fork» shaped insert is sandwiched between a two part EVA midsole for rock protection and energy return to keep you moving forward with ease. N+FOAM Nitrogen infused EVA offers excellent cushioning, rebound and energy efficiency in your running stride.

Outsole:

Michelin Formula rubber outsole churns across loose soil, rocks, and roots with effortless grip. Every sole lug is specifically located to maximize direction changes, braking, and propulsion.

2. FEATURES

- Weight: 270gr/shoe (UK size 8 for men) / 228 gr/shoe (UK size 5 for women)
- Precision and slim fit for perfect wrapping and race-ready performance
- 6mm drop for the right balance of reactivity and comfort
- Adaptable lacing system to evenly distribute lace pressure across all foot shapes
- Asymmetric heel reinforcement for great heel support
- Wedge Heel Cut - Acts like automotive 4x4 independent suspension to adapt to rough and ever-changing trail surfaces.

3. CONSUMER BENEFITS

- Lightweight
- Breathability
- Protection
- Grip
- Cushioning

4. DESIGN

- Dragonfly wings inspiration
- Performance-oriented
- Ski-inspired details
- Neon red is our key colour, symbol of our racing and performance DNA.

VERCORS

MAXIMUM PROTECTIVE CUSHION.
COMFORT FIT. BUILT TO GO THE DISTANCE.

The **VERCORS** has all the technical comfort for your long-distance trail adventures. Engineered for runners who demand both performance and comfort, these shoes combine protective & reactive cushioning with a lightweight build to keep you moving effortlessly. Featuring strong grip, breathable materials and technical assets to support you mile after mile, the VERCORS ensures every step feels as good as the first.

VERCORS

RNOMC50/RNOWC40

AUDIENCE

Engineered for long-distance trail runners who demand both performance and comfort.

TECHNOLOGIES

Upper composition:

Breathable Jacquard Air Mesh & feather wrapping frame (100% Recycled Jacquard mesh) for a seamless and supportive wrapping of the foot. Its adaptable stretch allows foot to swell and contract naturally during run & walk. With micro holes for maximum breathability.

Insole:

3 Soles System - 2 removable, 1 stitched to upper.

Midsole:

- The soft & reactive E+FOAM is a high energy, efficient and rebounding cushioning foam.

E+FOAM

- The anti-torsion bar is a medium Soft PU inlayed in the E+FOAM midsole to aid in drivability.
- The DIAPAZON SHIELD X-LT ensures underfoot protection & lateral stability.

DIAPAZON SHIELD X-LT

Outsole:

DURAGRIP ULTRA: Enhanced durability. Adapts to a multitude of surfaces, boosting your confidence on muddy, dry, hard, or unstable terrain.

FEATURES

- Weight: 290g in UK8 / 250g in UK5
- Drop: 6mm
- Stack: 32mm
- Lugs: 4mm
- Cushion: high comfort, bouncy, long lasting
- Terrain: mixed terrain
- Comfort Fit

CONSUMER BENEFITS

- Technical comfort
- Protective cushion
- Flow efficiency
- Stability

DESIGN

- Inspired by the eagle feather and the griffin paw
